## About Me

Passionate **DevOps** with **1,000+ hours of hands-on** experience in cloud platforms and automation. A proactive **team player** with strong leadership, problem-solving skills, and a drive for continuous learning. **Former military officer** with a proven ability to **adapt**, lead under pressure, and tackle complex challenges with **creativity** and **precision**.

## Work Experience

### Project Manager *at AppToDate*

October 2024 - Present

- Managed and prioritized tasks for the company's development team.
- Successfully led multiple **technological projects** from planning to execution, ensuring alignment with business goals.
- Utilized project management tools like **Asana**, **Jira** and **Azure DevOps** to track progress, assign tasks, and streamline team communication.

## Personal Projects

### To-Do App

- Developed a **Python-based Flask application** with MongoDB integration.
- Orchestrated deployment in a **Kubernetes** environment using **Helm** charts and **ArgoCD** for continuous deployment.
- Configured **Prometheus** and **Grafana** for comprehensive monitoring and performance metrics visualization.

### Cloud Resume Challenge

<https://resumedorav.online>

- Hosted a website on AWS using S3, CloudFront, Route 53, API Gateway, CloudWatch, and Lambda. Managed infrastructure with **Terraform** and automated **CI/CD** pipeline with GitHub Actions.

## Education

### DevOps Developer Expert *at Sella collage*

January 2024 - July 2024

- Hands-on experience with **Docker**, **Kubernetes**, **Terraform**, **Jenkins**, **Ansible**, and **cloud platforms** (AWS, Azure).
- Designed, implemented, and maintained automated **CI/CD** pipelines using Jenkins tools.
- Developed infrastructure as code with **Terraform** and **Ansible**, alongside real-time monitoring with **Prometheus** and **Grafana**.

### High School

September 2016 - June 2018

- Full matriculation, major in **computer science**.

## Military Service

### ICIT (Israeli Computer and IT Directorate) Officer *at J6 & Cyber Defense Directorate, IDF*

April 2019 - March 2023

#### Rank - Lieutenant

- Extensive personal management (commanders/soldiers)
- Control and monitoring systems implementation and management.
- Managed and led **HELPDESK** teams, overseeing system monitoring, account management, and **network administration**
