TECHNICAL SKILLS

Docker

- GIT
- Azure
- Jenkins
- Python
- ArgoCD
- Grafana
- MongoDB

- Kubernetes
- Linux
- MvSql
- Terraform
- Ansible
- AWS
- Prometheus
- Jira

EDUCATION

DevOps Developer Expert at Sela collage | 2024

- Configured and monitored containerized workloads using Docker and Kubernetes to ensure scalability and reliability of applications
- Designed, implemented, and maintained automated CI/CD pipelines using Jenkins tools
- Employed tools like Terraform and Ansible for infrastructure as code (IaC) to automate cloud resource management and configuration
- Excellent hands-on experience on Linux and Windows Server administration with Bash and PowerShell
- Utilized cloud platforms such as Azure and AWS for infrastructure provisioning and deployment

High School at Ben Zvi High School | 2015 - 2018

• Full matriculation, major in computer science (programming language: Java)

MILITARY EXPERIENCE

Deputy commander of ICT company

Rank - Lieutenant | Commando Brigade | 2021 - 2023

- Professional consultant for the senior ranks
- · Planning and executing multiple operational activities.
- · Training and implementation of ICT systems
- Extensive personal management (commanders/soldiers)
- Work effectively under operational pressure conditions

Deputy of ICT commander & IT team leader

Rank - Second Lieutenant | 2020 - 2021

- HELPDESK management team leader
- Executing numerous operational activities as a combat officer
- Control and monitoring systems implementation and management.
- ICT projects management

SOCIAL ACTIVITIES

• Youth guide and Project Manager at Hebrew Scouts Movement

PERSONAL PROJECTS

Cloud Resume Challenge - AWS

- Utilized CloudFront for efficient content delivery and distribution
- Created a Lambda function connected to DynamoDB for data retrieval, and set up CI/CD pipelines using GitHub Actions, integrating pytest for testing.
- Implemented Terraform for infrastructure as code
- Performed the same project in the **Azure** cloud as well

TO-DO App

- Developed a Flask-based application with **MongoDB** integration.
- Orchestrated deployment in a Kubernetes (K8s) environment using Helm charts and ArgoCD for continuous deployment.
- Implemented CI/CD pipelines with Jenkins to automate the build, test (using Pytest), and Docker image creation, followed by Helm package deployment.
- Configured Prometheus and Grafana for comprehensive monitoring and performance metrics visualization.

LANGUAGES

- Hebrew native
- English Fluent

CERTIFICATIONS

Ø Microsoft Certified: Azure Fundamentals

PERSONAL SKILLS

- Teamwork
- Creativity
- Work Ethic
- Autodidact
- Problem Solving
